PROFILE SUMMARY

Creative and results-driven Frontend Developer specializing in building modern, functional, and user-centered digital experiences. Self-taught coder with a passion for clean code and thoughtful design, combining logic and creativity to bring ideas to life. Proven ability to utilize modern frameworks (React.js, Tailwind CSS) and direct experience in Shopify code modification and client store management. Seeking a challenging role to leverage strong project expertise and continuous learning mindset.

WORK EXPERIENCE

FREELANCE/CONTRACT EXPERIENCE
Shopify Web Modifier & Designer | Remote Client Work

- Worked remotely to provide comprehensive modification and design services for a client's Shopify e-commerce store, enhancing aesthetics and functionality.
- Modified the store using custom code (HTML, CSS, JavaScript) to implement client-specific design requirements and features beyond standard theme limitations.
- Managed and updated product policies, ensuring the store was compliant and professionally presented to customers.
- Successfully transitioned client ideas into a live, professional, and fully functional e-commerce environment.

FEATURED PROJECTS

E-Commerce Website (Modern Online Store)
- Developed a modern e-commerce platform featuring essential functionalities including product filtering, a secure shopping cart system, and payment integration.
- Built the front-end using React.js, Tailwind CSS, and JavaScript to ensure a high-performance, responsive, and intuitive user experience.
- (Tech Stack: React.js, Tailwind CSS, JavaScript, HTML)

Shopify E-commerce Site (Client Implementation)
- Customized and managed an e-commerce website (lucamart.store) through the Shopify Admin Panel, applying code modifications to fulfill specific client needs.
- Ensured site structure and user flow were optimized for conversion and ease of use.
- (Tech Stack: Shopify Admin Page, HTML, CSS, JS)
-

2024 - 2025

Spotify Clone & Amazon Clone (Replication Practice)
- Executed detailed front-end clones of high-traffic platforms (Spotify and Amazon) to master core web technologies and responsive layout principles.
- Gained proficiency in converting complex designs into clean, semantic HTML, CSS, and JavaScript.
-

Currency Converter (API Integration)
- Developed a dynamic web application capable of comparing currency rates globally, requiring the successful integration of a third-party API for real-time data fetching and display.
- (Tech Stack: API, HTML, CSS, JavaScript)
